The most legendary contra-angles

in the world from W&H

syneca

The premium straight and contra-angle handpieces from W&H

People have Priority: To make it easier to select one of our Synea straight and contra-angle handpieces, we listened to your requirements and have developed two lines perfectly suited to your needs. Synea Vision: with innovations such as special scratch-resistant coating. Synea Fusion: a series with top quality and maximum economy.

VISION FUSION

Two instrument lines
Synea is available in Vision and Fusion lines.

Quiet
Noticeably quieter – thanks to gearing technology.

Monoblock design
Ergonomics cast from a single piece – for optimal hygiene.

Customised production
Different head sizes for optimal access options.

synea VISION

The instrument line for the highest demands. Customised straight and contra-angle handpieces with maximum precision, elegance and performance.

synea FUSION

The efficient and economical solution. Straight and contra-angle handpieces with the well-known Synea quality have never been so affordable!

Synea Vision Short Edition
The short route to better ergonomics.

Synea Power Edition
For the hardest materials.

Synea Vision: the ultimate straight and contra-angle handpieces

A range for all applications: W&H has developed a range of top quality instruments with the Synea Vision line. Two high-speed head sizes are available for surprising access options. And a special coating improves aesthetics even more – and extends their life.

Instruments for the future

- › Different head sizes
- › Perfect ergonomics and quiet operation
- › Lasting quality
- › Scratch-resistant surface
- › Long service life
- › 36 months warranty

Excellent preparation results with outstandingly quiet operation and optimised head sizes.

synea^{VISION}

Small heads

Two high-speed head sizes and the world's lowest head height among slow-speeds. Also ideal for patients with limited access.

Scratch-resistant surface

A special coating resists signs of wear – for long-lasting aesthetics and pleasure equal to that experienced on the first day.

5x spray

The 5x spray for high-speed contra-angle handpieces ensures even cooling of the treatment site under all conditions.

Versatile range

The right straight or contra-angle handpiece for every application – in Synea quality!

Synea Vision Short Edition: the perfect balance between power and ergonomics

The Synea Vision Short Edition makes the treatment process considerably easier due to the reduction in weight and length. Choose from the classic range of high and slow-speeds. The perfect balance between ergonomics and power when combined with the ultra-short micromotor EM-12 L.

Small but powerful

The micromotor EM-12 L with LED for bright as daylight illumination of the treatment area.

Scratch-resistant surface

even on the small Synea Vision contra-angle handpieces.

Best results

due to easy access and small head sizes.

Contra-angle handpieces for all situations

The Synea Vision Short Edition in the classic range and with two different head sizes for high-speeds.

Perfect balance

Fit perfectly in your hand: the contra-angle handpieces of the Short Edition.

The contra-angle handpieces of the Synea Vision Short Edition can be used on micromotors with an ISO coupling length of 23 mm or less. Please check compatibility with your existing micromotors. Your specialist consultant will be glad to assist you.

Synea Power Edition: High-performance handpieces for high-strength materials

With the special Synea 900-series, W&H has designed three extra powerful speed-increasing transmission instruments. The premium line of the Synea range – the Synea Vision – is complemented with the WK-900 LT, while the Synea Fusion portfolio is reinforced with the WG-900 A and the WG-900 LT.

Synea Vision: Technical data

Types with light: (compact glass rod)	WK-900 LT	WK-99 LT WK-99 LT S	WK-93 LT WK-93 LT S
Head size:	Ø 10.7 mm	Ø 9.5 mm	Ø 9.1 mm
Head height: with 19 mm (FG bur) or 22.5 mm (Contra-angle handpiece bur):	22.9 mm	22.3 mm	22 mm
Rotary instruments:	FG bur		
Max. operating part diameter:	Ø 2.5		Ø 2
Max. length:	25 mm		21 mm
Transmission ratio:	1:4	1:5	1:4.5
Spray:	3x	5x	
Indications:	<ul style="list-style-type: none"> › Crown and cavity preparations › Removing fillings and metal 	<ul style="list-style-type: none"> › Crown and cavity preparations › Trephining › Resections › Finishing › Removing fillings and metal 	

Types with light: (compact glass rod)	WK-86 LT	WK-66 LT WK-66 LT S	WK-56 LT WK-56 LT S	HK-43 LT
Head size:		Ø 9.5 mm		–
Head height: with 19 mm (FG bur) or 22.5 mm (Contra-angle handpiece bur):		24.1 mm		–
Rotary instruments:		Contra-angle handpiece bur		Straight and contra-angle handpiece burs
Max. operating part diameter:		–		–
Max. length:		34 mm		34 mm
Transmission ratio:	8:1	2:1	1:1	1:1
Spray:	1x			
Indications:	<ul style="list-style-type: none"> › Excavating › Preparations close to the pulp › Root canal filling › Cementing 	<ul style="list-style-type: none"> › Excavating › Preparations close to the pulp › Finishing 	<ul style="list-style-type: none"> › Cavity preparations › Trephining › Resections › Separating › Finishing of cavity margins and fillings 	<ul style="list-style-type: none"> › Preparing › Separating › Trephining › Resections in anterior area › Minor technical procedures

Synea Fusion:

Ultimate price-performance ratio

Proven Synea quality has never been so economical: With the Synea Fusion line W&H has developed a range of instruments in which economy is as important as quality.

Optimal cooling from four sides
Continuous cooling with 4x spray for high-speed contra-angle handpieces.

Small head
Best visibility and optimal access thanks to small head sizes.

Good illumination
Compact glass rod for good illumination of the treatment site.

Optimised grip profile
for secure grip and optimum hygiene.

Special instruments
Special reciprocating contra-angle handpieces for areas that are difficult to access.

Quality that pays for itself

- › Proven Synea quality
- › Maximum efficiency in use
- › Uncompromising user comfort

Synea Fusion:

Technical data

Types with light: (compact glass rod)	WG-900 LT	WG-99 LT	WG-69 LT	WG-67 LT
Types without light:	WG-900 A	WG-99 A	WG-69 A	WG-67 A
Head size:	Ø 10.7 mm	Ø 9.5 mm	Ø 10 mm	Ø 8.2 mm
